BDT Osprey Deterrent Eagle

ANDREW, in partnership with Bird Deterrent Technologies LLC (BDT), is excited to announce the availability of the **BDT Osprey Deterrent Eagle** - a patented, field-proven breakthrough using the intimidating silhouette of a live eagle to deter osprey and other large avian species from nesting on towers and other critical infrastructure. Specifically engineered for the telecom industry and field-tested for 8 years on telecommunication towers, substations, and bridges, the Osprey Deterrent Eagle is built to endure the toughest conditions.
